

# FOR IMMEDIATE RELEASE

## Periodic Products to Present Findings of Rare Earth Element Study at American Chemical Society National Meeting

Fort Lauderdale, FL – December 22, 2015

Periodic Products Inc. today announced it will present the results of its rare earth element study, *Extraction and Recovery of Rare Earth Elements from Phosphate Ore and Phosphate Mining Waste Products Using 1-Octadecene, Polymer with 2,5-Furandione, Sodium Salt*, at the upcoming 251st National Meeting of the American Chemical Society in San Diego, California, March 13-17, 2016.

Attendees to the American Chemical Society National Meeting include approximately 13,000 chemists, chemical engineers, academicians, graduate and undergraduate students, and other related professionals from around the world. Each meeting features presentations organized into technical symposia that highlight significant research advances in the fields of chemistry and chemical engineering.
