

FOR IMMEDIATE RELEASE

Periodic Products Awarded Patent for Polycarbonate Resins and Related Applications

Fort Lauderdale, FL – August 28, 2013

Periodic Products today announced that the U.S. Patent Office has awarded the company Patent No. 8519075 for polycarbonate resins.

This patent covers fundamental uses of polycarbonate resin plastics, fibers, related materials, and other aspects of the Company's ongoing developments with this technology. Periodic Products' polycarbonate resin technology is non-toxic and biodegradable, and has diverse applications in a wide range of industries.

According to Joseph Laurino, CEO and founder of Periodic Products, "This patent not only enhances our intellectually property portfolio, but affords the Company patent protection in an additional multi-billion dollar marketplace."

About Periodic Products

Periodic Products is committed to advancing a cleaner and safer global environment through the application of responsible science and breakthrough chemical technologies. Chelok® is Periodic Products' patented chelating technology, and gives Periodic Products' polymers the power to rapidly eliminate metals from water.
