

FOR IMMEDIATE RELEASE

Periodic Products Awarded Three International Patents for Chelation Technology and Related Applications

Fort Lauderdale, FL – July 12, 2016

Periodic Products Inc. today announced that it has been awarded three new patents for the Company's chelation technology, including its proprietary polymers and related processes. The patent awards are from the Russian Federation (Patent No. RU022914), the Republic of Armenia (Patent No. AM022914), and the Republic of Kazakhstan (Patent No. KZ022914).

"This region of the world contains numerous strategically important mining deposits, including several containing rare earth metals," said Joseph Laurino, PhD, President and CEO of Periodic Products. "Securing patent protection for our metal recovery process in these countries represents a significant market opportunity for the Company."

Periodic Products now holds 22 international patents for its family of polymers.
