## Periodic Products Awarded Argentine Patent for Chelation Technology

Fort Lauderdale, FL – October 3, 2017

Periodic Products Inc. today announced that it has been awarded a patent from the Argentine National Institute of Industrial Property in Buenos Aires, Argentina. The new patent (patent no. AR 077300 BI) is for the Company's chelation technology, including its proprietary polymers and related processes.

The Argentine patent further enhances the company's portfolio of domestic and international patents for its family of polymers.

### About Periodic Products

Periodic Products is committed to advancing a cleaner and safer global environment through the application of responsible science and breakthrough chemical technologies. **Chelok**<sup>®</sup> is Periodic Products' patented chelating technology. Chelok gives our family of polymers the power to rapidly and permanently remove metals from water, soil and industrial ash, and allows metals to be safely and economically recovered from mining waste.
