

FOR IMMEDIATE RELEASE

Periodic Products Awarded Canadian Patent for Plastics and Fibers

Fort Lauderdale, FL – October 22, 2018

Periodic Products Inc. announced today that it has been awarded a patent from the Canadian Intellectual Property Office. The new patent, no. 2,764,893, is for the Company's chelation technology, including its proprietary plastics, fibers and related processes.

The Canadian patent further extends the Company's portfolio of domestic and international patents for its family of polymers.

About Periodic Products

Periodic Products is committed to advancing a cleaner and safer global environment through the application of responsible science and breakthrough chemical technologies. **Chelok**[®] is Periodic Products' patented chelating technology. Chelok gives our family of polymers the power to rapidly and permanently remove metals from water, soil and industrial ash, and allows metals to be safely and economically recovered from mining waste.
